EXPERIENCE

- **Freelancer Developer | Remote**   **| (2023-present)**

  As a freelance full-stack developer, I build web and mobile applications using React, Next.js, Flutter, Node.js, NestJS, and Spring Boot. I design secure APIs, manage databases in PostgreSQL, MongoDB, and Prisma ORM, and create modern interfaces with Tailwind CSS and Vite. I work with Supabase, Firebase, and JWT for authentication, use Docker for containerized development, and deploy projects to platforms like Vercel and Netlify while maintaining clean version control through Git and GitHub.
